Reception: August 2, 6-8 pm  
August 2 – September 28, 2014

Saturday, August 2, di Rosa hosts an opening reception for "ONES AND ZEROS," a group exhibition of Bay Area artists addressing the impact of digital technology through relatively traditional artistic means. Artists Aaron Finnis, Charles Gute, Matt Lipps, Sanaz Mazinani, Simon Pyle, Stephanie Syjuco, and Margo Wolowiec present reflections on an increasingly digital, virtual contemporary life, taking technology as subject rather than as vehicle. An undeniable element of technology's rapid development is the obsolescence of parts, including the computers, screens, media players, speakers, and sensors artists might employ; the artists of "ONES AND ZEROS" factor the transience of specific technologies into their work, exploring digital devices, behaviors, and systems in artistic forms that can both accommodate and preserve this particular, peculiar moment in time.
